| SKU                      | AK-4100-P-W/UK                                    |
| Product Description:     | Active Key AK-4100-P - keyboard - English - white |
| Device Type:             | Keyboard                                          |
| Interface:               | PS/2                                              |
| Connectivity Technology: | Wired                                             |
| Localization and Layout: | English                                           |
| Keys Qty:                | 83                                                |
| Colour:                  | White                                             |

## General

|              |          |
|--------------|----------|
| Device Type: | Keyboard |
| Interface:   | PS/2     |

## Environmental Parameters

|                            |       |
|----------------------------|-------|
| Min Operating Temperature: | 0 °C  |
| Max Operating Temperature: | 50 °C |

## Miscellaneous

|                      |           |
|----------------------|-----------|
| Colour:              | White     |
| Compliant Standards: | FCC, RoHS |

## Input Device

|                          |          |
|--------------------------|----------|
| Keys Qty:                | 83       |
| Localization and Layout: | English  |
| Keyboard Technology:     | Scissors |
| Width:                   | 28.2 cm  |
| Depth:                   | 13.2 cm  |
| Height:                  | 2.5 cm   |
| Weight:                  | 500 g    |
