| SKU                  | J9830B#ABB                                                                                                                                                                                                                                            |
| Product Description: | HPE Aruba - power supply - 2750 Watt                                                                                                                                                                                                                  |
| Device Type:         | Power supply - plug-in module                                                                                                                                                                                                                         |
| Localisation:        | English / Europe                                                                                                                                                                                                                                      |
| Power Capacity:      | 2750 Watt                                                                                                                                                                                                                                             |
| Designed For:        | HPE Aruba 5406R 44GT PoE+ / 4SFP+, 5406R 8-port 1/2.5/5/10GBASE-T PoE+ / 8-port SFP+, 5406R-44G-PoE+/25FP+ v2 zL2, 5406R-44G-PoE+/4SFP v2 zL2, 5412R 92GT PoE+ / 4SFP+, 5412R-92G-PoE+/25FP+, 5412R-92G-PoE+/25FP+ v2 zL2, 5412R-92G-PoE+/4SFP v2 zL2 |

## General

|               |                               |
|---------------|-------------------------------|
| Device Type:  | Power supply - plug-in module |
| Localisation: | English / Europe              |

## Power Device

|                 |           |
|-----------------|-----------|
| Power Capacity: | 2750 Watt |
|-----------------|-----------|

## Compatibility Information

|               |                                                                                                                                                                                                                                                                                                                                                                                                                       |
|---------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Designed For: | HPE Aruba 5406R 44GT PoE+ / 4SFP+ (No PSU) v3 zL2 (2750 Watt), 5406R 8-port 1/2.5/5/10GBASE-T PoE+ / 8-port SFP+ (No PSU) v3 zL2 (2750 Watt), 5406R-44G-PoE+/25FP+ v2 zL2 (2750 Watt), 5406R-44G-PoE+/4SFP v2 zL2 (2750 Watt), 5412R 92GT PoE+ / 4SFP+ (No PSU) v3 zL2 (2750 Watt), 5412R-92G-PoE+/25FP+ (No PSU) v2 zL2 (2750 Watt), 5412R-92G-PoE+/25FP+ v2 zL2 (2750 Watt), 5412R-92G-PoE+/4SFP v2 zL2 (2750 Watt) |
